

VRAJ MODI

Computer Science Engineering Student | Web Development & Front-End Engineering

Ahmedabad, Gujarat, India | +91 99042 24063 | vrajm1904@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

- 5th-semester B.E. Computer Science Engineering student (GTU) building front-end engineering, UI and freelance web development skills through paid client work and hackathons, targeting internships in web/front-end development.
- Delivered a **live, paid freelance website** for Photo Factory, a wedding photography and cinematography studio — handled design, development and client communication end to end.
- Built the **React frontend foundation** for two hackathon-finalist products — PeoplePay360, an HR & payroll platform, and GlobeTrotter, a multi-city trip planner — covering auth, dashboards and data visualisation.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science

2024 – 2028

New L.J. Institute of Engineering & Technology, Gujarat Technological University (GTU) | Current: 5th Semester (3rd Year) | CPI: 8.92

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C

Front-End: HTML5, CSS3, React, Next.js, Three.js, Tailwind CSS, Vite

Back-End & Data: Node.js, Express.js, Flask, MySQL, MongoDB

Tools & Platforms: Git, GitHub, Vercel

Languages Spoken: Hindi (Native), Gujarati (Fluent), English (Professional Working Proficiency)

SELECTED EXPERIENCE

Freelance Web Developer — Photo Factory Website

2026

Paid client project | [photofactoryamd.com](#)

- Built and deployed the official website for Photo Factory, a wedding photography and cinematography studio in Ahmedabad, for a real paying client (₹13,500), covering wedding stories, films, awards and client testimonials.
- Owned the build end-to-end — design, responsive layout, the WhatsApp-based enquiry flow, and client communication — translating requirements into a finished, live site.

PROJECTS

PeoplePay360 — HR & Payroll Platform (Team Project)

2026

React, Vite, Tailwind CSS, Recharts, Node.js, Express | Odoo Hackathon 2026 — Finalist

- Built the React application shell with role-based access for employees, HR managers, payroll users and admins.
- Built the contracts and working-schedule screens feeding the platform's payrun and payslip generation.

GlobeTrotter — Multi-City Trip Planner

2026

React, Vite, Tailwind CSS, Recharts, Node.js, Express, PostgreSQL, Prisma | Odoo × LDCE Ahmedabad Hackathon '26

- Built the React frontend foundation — authentication, dashboard, trips, budget charts and profile — for a day-wise, multi-city trip planner with shareable itinerary links, in a team of four.

AI Chatbot — Lead-Capture Assistant

2025

Python, Flask, Google Gemini API, Google Sheets

- Built a Flask chat app that answers questions from a knowledge file using Gemini, and collects a visitor's name and mobile number into Google Sheets when they ask about a demo or enrolling.

CERTIFICATIONS & RECOGNITION

- Alpha: DSA with Java — Sigma 9, Apna College (Shradha Khapra)
- Odoo Hackathon 2026 — **Finalist** (PeoplePay360)
- Hack the Stack Hackathon, organised by StackCode — **Finalist**
- Odoo × LDCE Ahmedabad Hackathon '26 — GlobeTrotter
